

# Atos Unify OpenScape DECT mobile handsets

Cordless handsets for Atos Unify OpenScape systems.

In addition to the system-specific desktop telephones, cordless phones can also be operated with OpenScape systems. These cordless phones ensure that your employees can be reached at all times and at any location on your company premises.

## OpenScape DECT Phone SL6 handset

The Atos Unify OpenScape DECT Phone SL6 is the smallest and lightest DECT mobile phone in the portfolio. Due to its highest functions and design, it meets the most stringent requirements and is the perfect device for many workplaces. The large 2.4" color display with a state-of-the-art user interface makes it very easy to operate. The feature set is comparable to system terminals.
